

FREE RAINGARDEN DESIGN/INSTALL APPLICATION

(costs of materials not included*)

Property Owner:

Property Address:

Phone Number: Email Address:

Rain gardens should be at least 10 feet away from your foundation and away from major trees.
Does your yard have adequate space required for a rain garden? Yes No

Rain gardens should be placed near downspout so they can be connected to them. In the allotted area you have available is there access to a downspout from your garage or roof? Yes No

Is there a sump pump on the property that will be discharged to the rain garden? Yes No
If so, how often does it run? _____

Could we utilize this project as a demonstration project? Yes No

Could the rain garden on your property be utilized by different marketing approaches? Yes No
(this may include but not limited to being put on different websites, news story, and other publications)

Would we be able to install this rain garden in May/June 2018? Yes No

Would you be willing to have a 6"x9" rain garden sign placed in your yard? Yes No

Site selection will be determined by the number of applicants, priority locations, and site soil conditions. You will be contacted on the status of your application by April 2018.

If selected for a rain garden, AmeriCorps will design and install an approximate 4'x6' or 5'x6' rain garden on your property. A general idea of what this will look like is shown on the following page.

***The cost associated with the materials (plants, edgers, flagstone) will be at the cost of the owner. The anticipated cost incurred on the owner is estimated at \$300-500 (based on general known costs for materials). The homeowner will be required to purchase the needed materials prior to construction (April/May 2018). The costs incurred by the owner are eligible for the City's Cost Share Program (potential to receive 50% reimbursement) and the associated application should be submitted to the City for approval prior to project installation.**

I have read and agree to the conditions of this application and allow the AmeriCorps and the City of Cedar Rapids to access my property for evaluation of this application.
