SECTION 4.0 – SCOPE OF SERVICES

4.1 General Information

Introduction

The City of Cedar Rapids Engineering Division is seeking Proposals from qualified Consultants to prepare a Pedestrian Master Plan (PMP). The selected Consultant will review policy and implementation level direction, guidance and performance measures to help guide future investment decisions in the form of a consolidated PMP that will provide logical and efficient connectivity to other existing and planned modes of transportation in the community. It is the intent that this plan will serve as the guiding document for the development of a networks of pedestrian routes linking activity centers and parks within the City, as well as to the larger regional network. The network will not only make walking and bicycling more viable modes of transportation, but will also contribute to an enhanced quality of life. The City believes that the implementation of such a plan will also have health benefits to existing residents and contribute to the economic development of the area. This Plan, in conjunction with the Comprehensive Trails Plan and current trail developments, will help fill the gap in having a truly multi-modal transportation system in the City of Cedar Rapids that is well-designed, safe, comfortable, continuous, direct, and convenient for bicycles, pedestrians and vehicles. The City's goal is to have non-motorized transportation facilities for all users of various skill levels and physical abilities. If your firm is interested in providing the described services, please submit a proposal stating your ability and availability to complete this work.

Current and Recent Related Activities

The City of Cedar Rapids adopted a Sidewalk Master Plan in 2015. It is the City's intent that the Pedestrian Master Plan (PMP) will replace the existing Sidewalk Master Plan.

The City of Cedar Rapids adopted a Comprehensive Trails Plan in 2012 and had the map updated in 2014. The City of Cedar Rapids has a fairly extensive multiuse trail system (32.2 miles) which is mostly paved. In 2014 the City earned Bronze level Bicycle-Friendly Community (BFC) status from the League of American Bicyclists. The City of Cedar Rapids plans to apply for Silver Level BFC status in 2018.

The City of Cedar Rapids adopted a Complete Streets initiative in 2015 which was made part of the review criteria for new roadway projects. The Corridor Metropolitan Planning Organization (CMPO) recently completed the 2016 CMPO Transit Study and implemented some recommended transit route changes, and Cedar Rapids Transit is considering relocating some bus shelters throughout the City. The selected Consultant will be expected to exchange information with CMPO staff and the City's Transit Division throughout this project.

4.2 Scope of Services

The following scope of services provides an outline of services that are expected to be included in the development of the Pedestrian Master Plan (PMP). The Consultant may modify the desired scope of work presented below if, based on their professional expertise and knowledge, they can provide an approach that will more effectively address the goals of this project; however, the Consultant shall identify and explain any modifications to the requested scope.

4.2.1 Task 1 – Review of Existing Plans and Bicycle and Pedestrian Facilities, Mapping of Existing Bicycle and Pedestrian Facilities with Origins and Destinations

- a) The Consultant shall review the inventory of existing and proposed pedestrian facilities in the City of Cedar Rapids, and any other pertinent reference planning documents. The City will be updating the Geographic Information Systems (GIS) information starting in November 2017, from a high resolution photo taken in the spring of 2017 with an expected completion in December 2017. The City will be receiving updated plan metrics in the spring of 2018. The City of Cedar Rapids will provide current GIS information to the Consultant.
- b) The City uses ESRI ArcGIS 10.4.1. The Consultant shall update all data using ESRI Arc GIS for Desktop and provide the data in a File Geodatabase. Proposed and existing bicycle facilities have already been mapped in the recently adopted Comprehensive Trails Plan. All files shall be compatible with GIS and converted to an Arc GIS usable platform and conform to Federal Geographic Data Committee (FGDC) Standards.
- c) Inventory of data shall be completed with GIS-compatible data collection tools that are accurate within two (2) feet. This data shall be delivered in the following Coordinate System: Iowa State Plane, North Zone (FIPS 1401), North American Datum (NAD83), 2011 Adjustment, and units in feet. Photos/images may be included as attachments, or stored in a file location with hyperlinks stored in a sidewalk database feature.
- d) The Consultant shall verify database schema and associate sidewalk locations with existing address point, sidewalk segments, parcel, and street segment identification numbers maintained by the City's IT GIS Division, which will be supplied to Consultant by the City prior to sidewalk inventory.
- e) The Consultant shall review all of the current Iowa DOT's Bicycle & Pedestrian Program. The Consultant shall review all state and federal laws, regulations, rules or guidance that affect the function and direction of the pedestrian program such as, but not limited to: Public Right of Way Accessibility Guidelines (PROWAG), Department of Justice ruling on Other Power-Driven Mobility Devices, and Statewide Urban Design and Specification (SUDAS) Chapter 12.
- f) The following data will be supplied by the City:
 - Parcel polygons, boundaries, address points, street centerlines, right-of-way polygons, and additional feature classes as available
 - Transportation data
 - Cedar Rapids Comprehensive Trails Plan and 2014 map update (see links in 4.1 above)
 - Spring 2017 Orthoimagery, 3-inch resolution

Task 1 Deliverable: Updated map (from Spring 2017) of existing and proposed pedestrian facilities showing probable origins and destinations in both hard copy and electronic format.

4.2.2 Task 2 – Inventory of Sidewalk and Pedestrian Facility Needs

- a) Roadway crossing analysis

Safe roadway crossings are of high consideration when pedestrians are determining whether or not they will use certain crosswalks. Inventories shall include the presence of curb cuts, crosswalks, traffic signals and signs, and traffic speeds and volumes as sidewalk safety barometers.
- b) Environmental Justice and Considerations

Special attention shall be given to areas that are traditionally overlooked when infrastructure upgrades are considered. The City has maps indicating where these areas of higher concentrations of minority and low income individuals reside. It may also be possible to identify areas where persons with disabilities reside. The incident of persons walking or using Transit services out of economic necessity is higher in these areas, and the study shall address these possibilities accordingly.
- c) Business Access Considerations

Accessing businesses on busy corridors once pedestrians have arrived is also a high priority to be considered in this plan. It is imperative that pedestrians of all ability levels have safe and clearly defined access points to businesses.

d) Connector Paths

Many homes are in close proximity to destinations as the crow flies, but walking to these areas requires a long trip due to poor street connectivity and cul-de-sacs. These areas shall be identified and recommended solutions shall be provided by the Consultant.

Task 2 Deliverable: A map identifying Environmental Justice Areas, Business Access Considerations, and Connector Paths that also indicates where there are gaps in pedestrian accessibility.

4.2.3 Task 3 — Public Involvement and Steering Committee

The City's vision is that Steering and Advisory Committees will be utilized during the development of this Pedestrian Master Plan. The Steering Committee would include City staff including engineers and planners and the Advisory Committee would consist of engineers, planners, community representatives, professional staff from various departments within the City and the Corridor Metropolitan Planning Organization (CMPO). The Steering Committee will be assembled to coordinate with the Consultant throughout the plan process. It is expected that the Consultant will maintain open communication with the Advisory Committee, meeting with the Committee at key points in the planning process.

Involvement of the public in the planning effort is also critical to its success. The Consultant shall be responsible for all public hearing notices, graphics, slides, and handouts, including executive summaries for distribution to the general public. The Consultant will work closely with the City's communications coordinator to ensure material and messaging is consistent with City branding, and to use City communication channels in public outreach.

The following project communication activities will be expected:

- a) The Consultant agrees to prepare, attend and present at the following meetings: Presentation of the draft PMP to the City of Cedar Rapids Parks and Recreation Department, the Corridor Metropolitan Planning Organization's Technical Advisory and Policy Committees, local trail associations and the City Council Infrastructure Committee at dates and times to be determined. Some of these meetings may be consolidated. Presentations of the final PMP to the Cedar Rapids Infrastructure Committee and Cedar Rapids City Council will also take place at dates and times to be determined.
- b) The Consultant agrees to prepare a brief synopsis of public comments as part of the final document. Official minutes of public meetings and committee meetings are the responsibility of the Consultant and shall be included as part of the final document.
- c) The Consultant agrees to prepare draft documents, make revisions as required, and prepare final document(s) which will include maps, graphics, charts, tables, and an executive summary. The Consultant will respond in a timely manner to any comments that result from the City/CMPO/Public review, and will provide copies of all responses. The PMP will be prepared and submitted for staff and officials within the City of Cedar Rapids. Originals will also be supplied in digital format.
- d) The Consultant will provide content for a website that is updated regularly with the status of the Plan, and to gather public input through surveys or questionnaires. The City will maintain the website.
- e) The Consultant will participate in community workshops to receive input as well as to inform citizens, staff, stakeholders, and other agencies about the Plan.

Task 3 Deliverable: Documentation of meetings, draft documents for public meetings, presentations for public meetings, stakeholder comments and key findings, content for the Project website.

4.2.4 Task 4 — Develop a Pedestrian Mobility and Connectivity Network Map and Pedestrian Master Plan

- a) The Consultant shall develop a pedestrian mobility network, analyzing relevant streets and intersections for potential addition or upgrading of pedestrian facilities using GIS analysis and field evaluation. The GIS should have a layer that identifies the priority of the proposed sidewalks. The proposed sidewalk priority level shall be color coordinated so the priority levels can be easily identified when presenting to Council and the general public.

- b) The Draft PMP shall include at a minimum, engineering recommendations including typical sections for sidewalk improvements based on existing sidewalk or pedestrian facility conditions if it differs from the City of Cedar Rapids minimum sidewalk width; recommended changes to existing city standards, codes and/or ordinances; education and encouragement recommendations, and multi-modal connectivity recommendations. Communal areas and areas of respite are also valued aspects when considering connectivity to pedestrian areas and therefore should be considered in the development of this plan.
- c) The Consultant shall identify implementation strategies and priorities for future pedestrian facilities, targeting a short term timeframe (5 years). The five-year plan shall include suggestions for ongoing maintenance of planned facilities and alternatives for maintenance funding.
- d) The Consultant shall also identify implementation goals and priorities for future pedestrian facilities, targeting a long term timeframe (10 years).
- e) The Consultant shall provide performance measures that the City can use to track progress. The performance measures shall consist of items that can be easily explained to the public and can be applied even after the long-term plan has been completed. Some examples of performance measures may be related to budget, total number of parcels impacted, total length of new sidewalk, or how many businesses have been connected, etc.
- f) Funding strategies shall be provided and discussed during development of the PMP. The Consultant shall provide a funding strategy recommendation in the final Plan. Funding strategies shall include funding sources outside of the City (i.e. any state or federal funding available). The Consultant shall review annual sidewalk budgets or funding strategies for other cities similar in size and demographics to the City of Cedar Rapids.
- g) The Consultant shall provide the Plan and Network Map in hard copy and electronic versions. The Consultant shall present the PMP in two (2) presentations to local officials and stakeholders at the meetings determined appropriate by the Steering Committee for approval and adoption.

Task 4 Deliverable: A short-term Plan which identifies project priorities, and a long-term Plan which identifies project priorities, funding strategies, and performance measures. Plans shall include recommended improvements based on pedestrian level of service, level of demand or potential demand (transit access is important), and gaps of access. Special attention shall be given to pedestrian access at intersections addressing pedestrian traffic controls, transit access, and ADA accessibility. Quantitative analysis using 'gravity' models and quantified levels of service are preferred.

4.2.5 Final Deliverables

- a) Final PMP Document in hard copy (10 color copies)
- b) Final PMP as pdf file on flash drive, formatted to print an exact replica of hard copies provided
- c) Final PMP Document on flash drive in Microsoft Word and/or Excel
- d) Final PMP Document formatted for the City's Website
- e) Executive Summary
- f) Pedestrian Mobility Connectivity Network Map in hard copy and electronic versions

4.3 Project Schedule

The date for commencement of the project as well as the overall Contract period will be negotiated with the selected Consultant. Proposals shall include recommendations for the appropriate timeline. It is anticipated that the project duration will be 12 to 18 months.

4.4 Project Management

The proposed timeline included in the proposal shall include periodic progress updates when the Consultant will meet with the City's Project Manager to report on the status of the project. This shall include both on-site meetings in Cedar Rapids and telephone conference calls. At a minimum, all meetings shall include the Consultant's Project Manager. Any draft documents to be discussed shall be provided to the City of Cedar Rapids within a reasonable time frame prior to these meetings to allow for sufficient review time. The Consultant shall prepare and provide summary minutes of all scheduled on-site and telephone conference meetings.

Progress reports provided to the City at proposed regular intervals (at least monthly) shall include the following:

- Status of work completed to date
- Work performed in the current reporting period
- Work anticipated to be completed in the next reporting period
- Problems/obstacles identified during the reporting period
- Outstanding issues (items will remain on this list until resolved)

5.5.1 Team members will read each proposal and will evaluate based on their experience and judgment of how well the proposal addresses the City's requirements. Each prospective company is assured that any proposal submitted will be evaluated using the best available information and without any forgone conclusions.

5.5.2 The team members will convene to discuss the proposals. At this point, some firms may be eliminated from further consideration based on their overall response to the RFP.

5.5.3 Consideration will also be given to written clarification provided during the evaluation process and input from staff or other persons judged to have useful expertise that should be considered in a responsible, fair assessment of the relative merits of a proposal. References, as deemed appropriate, may be checked at any time during the process.

5.5.4 The team may arrange interviews, demonstrations and/or presentations with representatives of the top firms.

5.5.5 The team meets again for further discussion and then scores the top proposals based on the criteria stated in section 5.2.

5.5.6 At the discretion of the evaluation team, the top proposer(s) may be invited to submit a "best and final offer" to negotiate cost or deliverables.

5.5.7 The City would then enter into contract negotiations with the top Proposer.

5.6 A Proposer's submission of a proposal constitutes its acceptance of this evaluation technique and its recognition and acceptance that subjective judgments will be used by the evaluators in the evaluation.

Please allow up to 10 days for processing of the certificate before the business is listed.

4. Will the local preference policy be applied to all purchases for goods and services?

No, the following types of purchases are excluded:

- a. Purchases subject to the competitive laws of the State of Iowa
- b. Purchases subject to federal, state or county grant stipulations
- c. Purchases from the State of Iowa or other national contracts
- d. Sole source purchases

5. Do you have questions or feedback about the Buy Local Program?

Please send questions via email to buylocal@cedar-rapids.org

6. If I work out of my home, and my home is in Linn County, am I eligible to become a certified local business?

In order to qualify as local business your business must pay commercial property taxes related to the business being certified as local business. Residential property taxes paid for a home business do not qualify for the buy local certification.

7. How does the Buy Local Program work?

Preference shall be applied to acceptable quotes, bids and proposals greater than \$1,000 from businesses within Linn County, Iowa who have submitted a notarized "Local Business Certificate".

Example A: Preference shall be given in the procurement of goods and/or services by bid or quote when a local Contractor's bid or quote exceeds the acceptable low bid by no more than:

10% for bids less than \$25,000

5% for bids equal to or greater than \$25,000 but less than \$200,000

1% for bids equal to or greater than \$200,000

BID PRICE	\$ 15,147.99	\$ 14,770.55	\$ 18,250.00

- This bid is less than \$25,000 so the preference is 10%
- Contractor B submitted the lowest bid of \$14,770.55
- Contractor B is not a local business
- Contractor A submitted the next lowest bid of \$15,147.99
- Contractor A is a certified local business
- $\$15,147.99 - \$14,770.55 = \$377.44 / 14,770.55 = 2.56\%$
- The difference between the two bids is 2.56% which is within 10% so the local preference applies
- The bid is awarded to the local Contractor A for \$15,147.99
