ATTACHMENT C - BID SUBMITTAL FORM

Half-Ton Pickup Truck with Boxes - RFB #PUR1217-101

SPECIFICATION COMPLIANCE - Any supplier who willfully falsifies responses indicating compliance or non-compliance with the minimum requirements listed below will be subject to suspension and/or debarment from bidding.

Specifications for Half-Ton SuperCab Pickup Truck with 6.5' bed with boxes for the Water Plant.

Specifications for frain-fort Super Cab Fickup Truck wit	Does Not	Meets	Exceeds	
Minimum Specification	Meet Spec	Spec	Spec	Comments
Drive Train		1 -1	1 -1	
5.3L gasoline engine minimum				
Wheelbase 141" minimum				
GVWR – 5,500 minimum				
6.5 foot straight side bed				
Automatic transmission with overdrive				
Power Steering				
Power four wheel disc anti-lock brakes				
Power door locks				
Power windows				
Full size spare mounted under bed.				
Anti-spin rear differential				
All terrain radial tires, black side wall				
Trailer tow package with class IV receiver hitch, 2"				
shaft. Standard 7 flat pin wiring connector.				
Four wheel drive chassis with all required				
components, electronic shift on the dash				
Integrated brake controller				
Interior Components				
Full rubber mat flooring, black				
Heated exterior rear view mirrors				
Day/Night interior rear view mirror				
2 extra keys per vehicle, (Three complete sets of keys				
and remotes as applicable)				
AM/FM radio w/digital clock, bluetooth				
Driver/Passenger air bags				
Side curtain air bag system				
Intermittent windshield wiper system				
Interinctent windshield wiper system Interior trim package to include insulating headliner,				
full door panels, dome light, vinyl upholstery dark gray				
Standard tinted windshield				
Air conditioning with all required options Tilt steering column				
Electronic speed control				
12V separately fused power port				
Circuit Boss – Circuit Isolator # 70207 (7 circuits), Painless is the current product line we use configured				
as follows:				
Circuit 1-3 – constant power				
Circuit 4-7 - ignition powered				
To be mounted behind kick panel under steering				
column

	Does Not	Meets	Exceeds	
Minimum Specification	Meet Spec	Spec	Spec	Comments
All holes made in the roof shall be caulked with				
silicon (no exception).				
Corrosion preventative compound shall be applied to				
non-waterproof electrical connectors located outside				
of the cab or body. All non-waterproof connections				
shall require this compound in the plug to prevent				
corrosion and for easy separation of the plug.				
Any lights containing non-waterproof sockets in a				
weather-exposed area shall have corrosion				
preventative compound added to the socket terminal				
area.				
Rubber coated metal clamps shall be used to support				
wire harnessing and battery cables routed along the				
chassis frame rails.				
Heat shields shall be used to protect harnessing in				
areas where high temperatures exist. Harnessing				
passing near the engine exhaust shall be protected by				
a heat shield				
For ease of identification, battery cables shall be				
color coded. All positive battery cables shall be red in				
color or wrapped in red loom the entire length of the				
cable. All negative battery cables shall be black in				
color				
Wire connections shall be made using crimp style				
heat shrink butt splice connectors or soldered				
connection covered with heat shrink. If crimp style				
connector is used, crimping tool Westward 13H876				
or equivalent must be used to prevent piercing heat				
shrink. Solder sleeve butt splice type connectors shall				
not be allowed.
