

City of Cedar Rapids Police Department - Rear Dock Area Gate Inclusion and Details

**Rear Dock Gate Located On Valor Way,
Behind Police Department Building:**

***NOTE: Rear “Dock Gate” IS included in this project and needs to be bid with the package.**

← **Picture #1: The highlighted area demonstrates the area where the gate is too high off the ground when closed. This area will need to be covered when closed so a person cannot get under the gate and enter the premises.**

Picture #2: → The highlighted area in this picture depicts the area that will need to be excavated and the curb line cut in order to lower the gate mechanism and opener to allow for the gate to open and close at an appropriate distance from the ground to provide proper protection from entrance to the premises.

All demolition, excavation, concrete work, footings, etc. that are required should be included in the Bid. Waste disposal also need to be included. This information is for example purposes only. Contractor will determine their own method for achieving desired end results.
