

2D. Comments/questions on the recommendations for **Housing:**

Neighborhood based groups like NFC are member
Neighborhoods organizations. The organizations require
substantial local financial support in order to
leverage outside funds. Is there enough support for a
new housing non-profit?

2E. Comments/questions on the recommendations for **Zoning:**

Implement an owner-occupancy inspection program
requiring an inspection upon sale. New owners
will have a time-frame to address most egregious
deficiencies.

2F. Comments/questions on the recommendations for **Vacant and/or Dilapidated Housing:**

Use Fannie Mae ACF or other non-federal sources to
acquire and rehabilitate vacant & abandoned (foreclosed)
properties, sell to homebuyers with a "Rebuild the
Neighborhood" Incentive.

2G. Comments/questions on the recommendations for **Strengthening Neighborhoods:**

Neighborhood events need to be inclusive of
owners and renters.
In Wellington, utilize the Paul Engle Center, to bridge the
gap through the arts.

3. Other Comments/Questions?

Seems a good time to reactivate the Affordable
Housing Commission or some hybrid.
