2F. Comments/questions on the recommendations for **Vacant and/or Dilapidated Housing:**

There is NOT any dilapidated housing.
The city inspects each one before they
can be rented. I know
we have no slums, just slummy people.

2G. Comments/questions on the recommendations for **Strengthening Neighborhoods:**

Quit building any more low income property
till ever one we have is full.
That the bad tenants won't be able
to find housing so easy.

3. Other Comments/Questions?

Too much low income property built in the last
10 to 15 years get us into this mess.
No blaming on the city's part.
