

2D. Comments/questions on the recommendations for **Housing:**

2E. Comments/questions on the recommendations for **Zoning:**

I think we should work on cleaning up what is already there rather than building additional housing and letting what is there go to waste.

2F. Comments/questions on the recommendations for **Vacant and/or Dilapidated Housing:**

If it is not something that can be salvaged <sup>(rescued)</sup> tear it down, sell the lot and allow someone to build something suitable in its place. Rebuild in the same place rather than building unnecessary multi-housing units.

2G. Comments/questions on the recommendations for **Strengthening Neighborhoods:**

I would like to see more public information resources on neighborhood watch programs. It would be great to see people all over become more involved in cleaning up & policing their neighborhoods.

3. **Other Comments/Questions?**

I think all judges should have one standard to follow as far as what they will allow landlords to evict based upon <sup>ex-</sup>noise complaints, lease <sup>constant</sup> violations.
